Collection of Waste Electrical and Electronic Equipment

City Management has recently launched the Recycling Programme for the collection of waste electrical and electronic equipment in Discovery Bay. A recycling compartment would be placed at the designated area of each village on the scheduled Sunday or Public Holiday. (Please refer to the attached time-table). Residents may place unwanted items in that container for collection by our cleaning contractor. Details are as follow:

Household electrical and electronic appliances

Televisions, refrigerators, washers & dryers, air-conditioners, video/audio equipment, rice cookers, electric kettles, electric food processors, microwave ovens, heaters, fans, telecommunications equipment, electronic toys and game sets, chargers, and etc.

Computer

Computer parts (hard drives, CD-Rom/DVD drives, PC boards), monitors, printers, scanners, mouses, keyboards, speaker, transformers and etc.

We will continue to work with residents for a better living environment in Discovery Bay. Thank you for your support in advance.
